

Antrim County Airport

Annual Report for 2017

May 10th, 2018

Dear Commissioner:

We take seriously the trust placed in us by the Pilots and Crews that use our facility. Our Staff of four have a combined experience of 85 years of service to Antrim County's airport! We know that our experience and judgement regarding day to day operations is an important part of the culture of safety necessary to provide the services of a modern airport. Each day is different and new situations constantly appear but we are committed to providing our best effort to our community.

The major event of 2017 for ACB was the rehabilitation of our runway surface. The new surface was produced by the latest hi-tech manufacturing processes and materials to provide a durable, long lived and safe runway. All this and it was accomplished under budget and ahead of schedule.

The actual installation of the surface is as much a science as art and for both to come together on a project is a special event. Antrim County can be proud that our project was given the 2017 Award of Excellence: Airport Projects by the Asphalt Pavement Association of Michigan and the Michigan Department of Transportation and was feature on AOPA media.

Two Thumbs-Up for our Runway

I want to thank the Antrim County Commissioners for their continued support.

Sincerely,

John C. Strehl

And Remember:

A Mile of Highway gets you a mile down the road,

A Mile of Runway gets you the World.

Revenue and Expenditures for 2017
