

## 2019 Annual Report

The construction industry here in Antrim County is continually growing and this year was no exception. The total number of permits sold for the year was 2223. We also performed 6778 inspections for those permits, resulting in an additional 470 more inspections than the previous year. The portion of those permits that were non-residential/commercial was 93. Resulting in 7 more commercial permits issued over last year. The breakdown for the permits issued per trade are as follows: Building – 659, Plumbing – 259, Electrical – 634, Mechanical – 671, Temp Cert. of Occ. – 14, Residential Plan Review – 585, Comm. Plan Review – 93.

Our active staff consists of:

- One department head with building official, mechanical inspector, and plan reviewer registrations
- One full-time building inspector and plan reviewer
- One part-time plumbing inspector
- One full-time electrical inspector and plan reviewer
- Two full-time secretaries

We are still continuing to convert our paper files into electronic documents stored in the counties computer servers. All new permit applications and supporting documents are being scanned when possible after the permit is issued. This results in reducing the space needed for paper storage and makes that information more accessible to anyone who needs it.
