

The primary responsibility of the County Surveyor is to implement the State Remonumentation Program. The purpose of the program is to remonument every section corner in the state.

It will take approximately 30 years to complete the program in Antrim County if the same rate of completion is followed as the last 20 years.

The following lists the grant amounts received over the last three years, as well as the amount for this year:

2011	\$34452
2012	\$34501
2013	\$35632
2014	\$50133

The money for the program is collected by the Register of Deeds on every document recorded. This money is then pooled and redistributed based on a formula to all counties participating in the program.

Counties are not required to participate in the program and must apply every year. However, as long as the paperwork is submitted correctly, the grant award is guaranteed.

Respectfully Submitted

Scott Papineau, P.S.
Antrim County Surveyor
