Antrim County Board of Commissioners
Re: Board Meeting 3-12-2015

The Township Ambulance Authority has some planned changes going into effect April 1, 2015 and I think it important to inform the commissioners of these changes. I will address the changes dealing with administration and Wendy Dawson will be present to answer any questions regarding operations.

Most of the planned changes will take place in administration and will not affect patient care. Operational changes regarding patient care are regulated by legislation or through medical control.

President TAA

Terry Smith
